## The Old Reliable Jewelry House

of Hopkinsville is, after all, the best place to get anything in the  
Jewelry line. There's a record behind us, a record of over  
thirty years; a clean record of satisfied customers, a record of  
honest dealing, for honest quality, honest prices. It's a record  
any Jeweler might feel proud of. And when we sell an article  
we have in mind that we have a record to maintain, and no slip-  
shod methods, no careless workmanship, no lack of quality, is  
ever allowed to mar the record of the past. But to improve, if  
possible, this record, is ever our aim, and goods are sold for as  
low a price as it is possible to sell reliable goods.

It will pay you in the end to deal with the Old Reliable  
Jeweler.

## CITY FINANCES DISCUSSED.

Council Holds Session Devot-  
ed to Routine Work and  
Settlements.

### PAVEMENTS ORDERED.

Property Owners on West  
17th Street to Be Forced  
to Put Down Curbing.

The city council met Friday night  
in regular session and disposed of  
a mass of routine business mostly con-  
cerning the finances.

The bond of City Tax Collector H.  
C. Moore was approved for the cur-  
rent term.

Messrs. Frank Rives and Chas. O.  
Prowse, commissioners appointed to  
make settlement for the city with  
the administrator of the late Gus  
Tandy, tax collector, reported that  
they were not quite ready for a set-  
tlement.

Mr. Tandy was collector from 1902  
until his death July 28, 1906, and  
there has never been any quietus  
given for any year. Only about \$700  
was collected for 1906 and this book  
was released some time ago and is in  
the hands of the new collector. The  
books for 1905 and 1904 are also  
ready, but those of 1903 and 1902  
have been only partly examined. The  
delinquent taxes amount to about  
\$12,300 since 1902 and about \$2,000  
worth of property tax was repre-  
sented by the tax sale July 16. A  
delinquent tax collector will be elect-  
ed to collect about \$10,000 yet out-  
standing. Collector Moore reported  
\$25,000 of property listed for taxes  
by him that had been located and  
verified. About \$55,000 more was  
being investigated and would be re-  
ported at the next meeting. These  
additions to the assessor's list will  
increase the total to more than  
\$3,000,000.

The bill for \$1,023 for new fire  
hose purchased in February was or-  
dered paid.

Mayor Meacham reported that he  
had received an invitation for himself  
and the city council to attend the  
meeting of the League of American  
Municipalities at the Auditorium in  
Chicago Sept. 27.

An ordinance was passed ordering  
down a brick or concrete pavement  
on East Ninth street, east of Bel-  
mont street.

The city engineer was directed to  
advertise for bids for putting down  
stone curbing on West Seventeenth  
street wherever the ordinance of  
last spring has not been complied  
with by Aug. 25th.

The reports of City Engineer Mc-  
Claid, for June and July, passed  
over at the last meeting were re-  
ceived and ordered filed.

## WORSE THAN 'FRISCO'S.

Valparaiso, Chili, Gets 82  
Shocks and Many Towns  
Destroyed.

### 2,000 LIVES ARE LOST.

Whole Western Coast of  
South America Gets a  
Shaking Up.

Valparaiso, Chili, Aug. 20.—At  
7:52 o'clock last Thursday evening  
Valparaiso experienced an earth-  
quake of great severity and during  
that night eighty-two shocks were  
felt. Most of the buildings of the  
city were ruined or damaged. The  
loss will be enormous, probably  
reaching \$250,000,000.

Two thousand persons killed is  
considered to be a fair estimate of  
the casualties.

Vina del Mar, three miles from  
Valparaiso, and having a population  
of over 10,000; Quiriqui, 225 to the  
Southward, with a population of  
2,500; Salto Limache, fifteen miles to  
the Northwest, with a population of  
6,500; Quillota, twenty-five miles to  
the Northwest, with a population of  
10,000, and villages all around were  
destroyed.

Most of the damage was due to  
fire which started immediately after  
the first shock.

The whole population is sleeping  
in the hills, the parks or the streets.  
At Santiago many of the best pub-  
lic and private buildings were  
wrecked. The loss of life there was  
augmented by the panic which  
seized the people, many of whom  
threw themselves from the balconies  
of their homes.

The railroads are destroyed.  
Rain, which began to fall im-  
mediately after the first shock,  
stopped an hour afterward.

The nights are very cold and  
windy and the people sleeping in the  
open are suffering greatly.

The captain of a steamship which  
has arrived from San Francisco,  
says that the situation here is worse  
than that following the disaster at  
San Francisco.

### DIED SATURDAY.

J. Rogers Barr Passes Away  
at Lexington.

Mr. J. Rogers Barr, son-in-law of  
Mr. Hunter Wood, of this city, died  
at Lexington Saturday, in the 38th  
year of his age. He was general  
manager of the Lexington and East-  
ern Railroad and was prominent in  
business and social circles. He was  
a son of Judge Jno. W. Barr, of  
Louisville. A widow and two chil-  
dren survive him. The funeral at  
Louisville was attended by Mr. and  
Mrs. Hunter Wood and Mr. A. W.  
Wood, of this city.

### MUCH IMPROVED.

Mrs. Wolfe Will Soon Be  
Able to Be Out.

The condition of Mrs. Phil Wolfe,  
who a week or so ago underwent an  
operation at the Sanitarium for ap-  
pendicitis, is much improved and  
she will soon be well enough to be  
out again. Mrs. Wolfe was removed  
from the Sanitarium soon after the  
operation was performed and she is  
now at the residence of Mr. Wolfe's

## New York Life.

Hopkinsville, Ky., April 30th, 1906.  
Mr. Walter F. Garnett, Agent,  
New York Life Insurance Co.,  
City.

Dear Sir:—  
It gives me pleasure to acknowledge receipt of statement of optional  
settlement on 20-Payment Life Policy, No. 225,588, for \$1,500.00, issued  
at age 35, with premium of \$52.50, taken out with you Apr. 23, '86. After  
having been insured for 20 years, I am offered a paid up policy for \$1,500  
and a cash dividend of \$406.88, or the total value may be withdrawn in  
cash—\$1,215.88, (which is more than I have paid in in the 20 years) or a  
fully paid up policy payable at my death for \$2,219.00.  
The cash settlement of \$1,215.88 is equal to Term Insurance at  
\$12.87 per \$1,000 and an investment of the balance of premiums with 5 1/2  
per cent. compound interest for twenty years. This showing is certainly a  
creditable one for the New York Life, and I will be pleased to give you  
my application for \$1,000 on the Ordinary Life plan.  
Yours very truly, C. E. WEST.

**Y. M. C. A. in Kentucky.**

The State Executive Committee of the Young Men's Christian Association of Kentucky, in response to the needs of the work throughout the State, is planning for a vigorous and aggressive campaign during the coming fall and winter. Mr. Rose, the State Secretary, has been occupied during the past few weeks in filling the vacancies on the secretarial force of the state committee, so that all departments of the state work may be fully manned by September 1st.

The vacancy caused by the death of Mr. Van Horn a few months ago has been filled by Mr. John S. Moore, of St. Louis, Mo. Mr. Moore is a graduate of the University of Nebraska, and has served as student secretary of the Missouri association, and for the past two years has been religious work director of the St. Louis association. In addition to the promotion of the religious work of the Kentucky associations, Mr. Moore will also supervise the student organizations throughout the state.

Mr. Jas. H. Anderson, a graduate of the Secretarial Training School at Chicago, also a business college, and recently engaged in association practice in Tennessee and Pennsylvania, is the new office department secretary of the state committee.

The position of financial department secretary of the committee, formerly occupied by Mr. B. W. Godfrey, who went to Dayton, Ohio last month, has been filled by Mr. E. M. Thommasson, of Topeka, Kansas. Mr. Thommasson, a graduate of Knox College, Illinois, has been one of the assistant state secretaries of the Kansas associations, and previously occupied a similar position in Illinois. He will be related to the securing of the annual current expense budget of the state committee, and the raising of the endowment fund for the state work.

Mr. Rose states that the condition of the association work in Kentucky was never more satisfactory than at the present time, and that there is every indication that the year 1906 will far exceed the record of any previous year. Especially will this be true as regards the building movements in the city, county and railroad organizations of the state. The funds for new buildings at ten points have been secured, and canvasses are in progress for the process of organization at eight other places.

The annual conference of the employed officers of the Kentucky associations will be held at Anchorage, September 12 and 13.

## How to Make Hens Moul

Out of Season.

Mr. Henry Van Dresser, the famous New York expert, claims to have made a discovery of the greatest interest to the poultry business. This is nothing more new than a plan to make hens moult out of season. The object of this transformation of a natural process is to make hens lay the bulk of their eggs when most hens are not laying at all, and the prices are away up. The process, as explained by Mr. Van Dresser, himself, is about as follows: In August the wealthy people of New York City, who eat high priced eggs, are off to watering places or pleasure resorts in Europe, and the eggs are not needed. It is then that Mr. Van Dresser makes his hens moult and get ready for fall business. For two weeks they are shut up in their pens and fed only one-quarter of a full ration. This reduces their flesh. Then they are let out into the sunshine and open air and fed with a rush the best possible food, all the corn, peas, oats, wheat, corn and particularly sunflower seed. This soon loosens up the old feathers and they drop off so fast as to leave the hens bare.

Under this heavy feeding the birds soon take on new plumage and the reddening of the comb, which gives promise of fruitfulness. So, about the time the aristocracy returns to town and hens generally are on a strike, these freshly moulted Leghorns are doing almost full week. This will appear to most poultrymen as the missing link that will bring success. It seems to be something entirely new and yet strictly scientific and feasible. Of course when everybody gets to doing it there will be no object in so doing, but before the others catch on it would appear to be a "bright" scheme. —American Poultry Advocate.

## Legend of Hoopoe's Crown

That interesting bird, the hoopoe, is now represented in the Zoological Society's menagerie. Compared with a bird of paradise, the hoopoe is a humble looking creature in red, sandy plumage, barred with black, but in its way it is beautiful. It is adorned with a crest of stiff feathers. The hoopoe is well known in Asia, as well as in Europe. There is a Spanish legend concerning it which has been related by Kirgisey.

The story goes that once upon a time the holy birds who run up and down on the Prado at Seville among the ladies' pretty feet, had golden crowns on their heads. One day the birds and beasts all went to pay homage at the court of King Solomon, and among them, of course were the hoopoes. When their turn came they made their request, which was that the king would pray for them that their crowns might be changed.

So King Solomon prayed, and instead of golden crowns they received crowns of feathers. Ever since then the hoopoes have worn their "live as merrily as crickets in earthen," and also have the honor of bearing the name of his Most Catholic Majesty, King Solomon. —Fall Mail Gazette.

## Limber-Neck Again

Limber-neck is a symptom of some disease or disordered condition of the bird. The bird's neck and head hang down because the neck was broken, and the fowl cannot hold its head erect. It is a symptom of brain and nerve disturbance. The treatment must be governed by the cause. Fighting in large combed cocks will cause it. Rest treatment is usually all that is needed. Fright or over-exercise from being "run" will cause it in some birds. Rest is the treatment here also. Over-eating of worms or maggots will cause it. A few drops of spirits of turpentine administered in bread pills will usually cure. Intestinal parasites will cause it, and if they are found, treat for them. —Dr. Woods, in Poultry Monthly.

The Delineator for September is packed with good reading matter for everyone. The woman of fashion will find much of interest in the pages devoted to dress, millinery and neckwear; and those who are otherwise inclined may derive a great deal of pleasure and entertainment from the literary features provided in this number. Barry Pain, the well known humorist, contributes the first chapter of "The Diary of a Baby," a story that promises to be one of the brightest and cleverest this author has ever written. Everyone must enjoy the observations of this precocious baby, and follow with amusement its builder's career.

**Do You Feel Chilly, Then Feverish and Ache all Over?**

Fall Worn-out, Blue and Tired? Have You a Fresh Cold, With Frequent Sneezing Cough? Sensation of Soreness in the Chest or Back?

Don't let your case run into bronchitis, or some other obstinate and dangerous malady. The very best medicine to take in such a case is Dr. Pierce's Golden Medical Discovery. It will without alcohol or dangerous drugs, it contains that rare combination of the most medicinal roots that will allow a cough from its onset, as it will, restore the circulation, assist the appetite and digestion and consequently restore tone to the entire system. That is the reason people look happy once more after taking it—they feel like living, because their liver is active, the blood in their arteries is full of that life-giving quality—rich, red blood. The blood in your veins is the life of the body.

Nervousness and neuritis are only the indication that the nervous system is on an invigorating mood. This "Medical Discovery" of Dr. Pierce is nature's own restorative. It tones up the organism and invigorates its functions, furnishing to the body one of its necessary constituents, principles of which it is in need.

This preparation is of pleasant taste, agrees perfectly with rebellious and sensitive stomachs, and is extremely effective in restoring tone and vigor to the entire system. It cures troubles of the stomach and at the same time the blood-vessels are given such a toning up as to

be able to resist the invasion of any disease, and to keep the system in a healthy state.

## FALL FESTIVAL

At Cincinnati This Year Will Be Greatest Ever.

Cincinnati, O., Aug. 17.—In two more weeks, this city's fifty and greatest Fall Festival will throw open its gates to the public. Two hundred and fifty strong, "The Blue Horn" forces arrived early in the week to continue rehearsals in Music Hall, the biggest theatre in the west. The "Fighting the Flames" exhibition is practically complete at a cost of about \$20,000; hundreds of exhibits are being installed and the Park shows, bigger than the St. Louis Pike, will soon be ready for public inspection.

The festival will cost by the time the gates are opened on Aug. 28th, more than a half-million dollars. The business houses are already beginning to decorate. Big cash prizes have been offered by the festival directors for the best decorated buildings and the entire city is undergoing a complete "house cleaning," anticipating the coming of a half-million in guests. Flags, banners and pennants will be flying, bands playing, and the entire city will be in gala attire to greet the first visitors at the fair.

"Make Hay While the Sun Shines." There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. For sale by L. L. Elgin and Anderson & Fowler, the up-to-date druggists at Hopkinsville.

### Another Freak.

Mr. M. D. Boales went up to his farm in Todd county Wednesday and brought back a sample of freak corn which is growing in one of his fields. The main shuck is fully two feet long, but there are three other ears growing out on the main one. All four of them are in fresh silk. Had the ear been allowed to grow it is probable that the four ears would have made full ones. Mr. Boales pulled the corn from a row growing on the outer edge of the field and says there are plenty of other stalks producing ears of the same formation. Mr. Boales says it is nothing but "common old horse corn."

### In Great Demand.

The demand for Chamberlain's Colic, Cholera and Diarrhoea Remedy here has been so great that I have scarcely been able to keep it in stock. It has cured cases of dysentery here when all other remedies failed. — Frank Jones, Pikeville, Ind.—This remedy is for sale by L. L. Elgin and Anderson & Fowler, the up-to-date druggists at Hopkinsville.

### Winter in June.

The Australian Hen for June says: "Winter has suddenly spread its mantle over this quarter, and after warm, dry weather we are suddenly smitten with biting winds, driving rain and chilling fogs. To the breeder prepared for the change of season it is not so bad, but for him who put off and puts off it means trouble. It is time preparations were made for the reception of the chicks and the breeding stock carefully overhauled and put up for the season and time that the beginners contemplating 'a few fowls' should decide what they require and where they will obtain the birds, and then lose no time in getting them."

### Why Fret and Worry

when your child has a severe cold? You need not fear pneumonia or other pulmonary diseases. Keep supplied with Ballard's Horehound Syrup—a positive cure for Colds, Coughs, Whooping Cough and Bronchitis. Mrs. Hall, of Sioux Falls, S. D., writes: "I have used your wonderful Ballard's Horehound Syrup on my children for five years. Its results have been wonderful." Sold by Cook & Higgins.

### False Alarm.

The fire department had a useless run out North Main street at 10 o'clock Thursday morning. The alarm was turned in by some negro, one of the firemen says, on first between Main and Virginia. He says there were five or six negroes in one of the rooms of a double house and one of them called out the department without any cause whatever. It was impossible to find out the one that did it. There is a heavy penalty for this kind of amusement.

The readers of this paper will be  
pleased to learn that there is at least  
one dreaded disease that science has  
been able to cure in all its stages,  
and that is Catarrh. Hall's Catarrh  
Cure is the only positive cure now  
known to the medical fraternity.  
Catarrh being a constitutional dis-  
ease, requires a constitutional treat-  
ment. Hall's Catarrh Cure is taken  
internally, acting directly upon the  
blood and mucous surfaces of the  
system, thereby destroying the  
foundation of the disease, and giving  
the patient strength by building up  
the constitution and assisting nature  
in doing its work. The proprietors  
have so much faith in its curative  
powers that they offer One Hundred  
Dollars for any case that it fails to  
cure. Send for list of testimonials.

## Eruptions

The only way to get rid  
of pimples and other eruptions  
is to cleanse the blood,  
improve the digestion, stimu-  
late the kidneys, liver and  
skin. The medicine to take is  
**Hood's Sarsaparilla**  
Which has cured thousands.

Both candidates for Senator spoke  
in the Second district Saturday with-  
in 35 miles of each other, at the same  
hour. Gov. Beckham's crowd at  
Madisonville was estimated at 1,500  
and Senator McCrory's at Hender-  
son at 1,200. Brass bands were  
in evidence at both places. At  
Madisonville a group of ministers  
occupied the stand and the meeting  
was opened and closed with prayer.  
It was held in the tabernacle. At  
Henderson the speaking was in the  
court house yard. Gov. Beckham's  
speech was the same one published  
in our Saturday's paper. Senator  
McCrory's speech, which opened  
his campaign, was devoted mostly to  
national issues.

Editor Jno. H. Westover is touring  
the lake region about Niagara Falls  
with thirteen young ladies who won  
in a popularity contest in Owenton.  
Writing back to his paper, he says:  
"It has been my pleasure for 24  
years to be much of a traveler. Twenty  
four years ago I made my first trip to  
the Pacific coast and taught school  
under the shadow of Mt. Hood, in the  
Willamette valley, Oregon. I have seen  
every spot on this continent and have  
traveled with my wife and family in  
the best of places, but I have never been  
in any crowd anywhere, that showed  
to better advantage than do these  
unoppressed country girls from  
Owen, Grant and Carroll counties."

### Barnes Items.

Barnes, Ky., August 18, 1906.  
We have had good rains for the  
past week. Crops are growing rapidly  
and we are already feasting on roast-  
ing ears. The farmers are delighted  
with the prospect of a fine crop of  
corn.

Tobacco is freching in low lands,  
though the prospects are good for  
a large crop and it is growing finely  
at this time.

Bro. Foard is conducting a series  
of services at Foard's Chapel at  
Dogwood. He began last Sunday.  
We have had rain every night since  
he began and the meeting, on that  
account, is at a standstill at present.

Tobacco worms are reported as be-  
ing very plentiful.

Mrs. Gus Robinson and daughter,  
of Fruit Hill, attended church at  
Foard's Chapel last Sunday. Mr.  
Robinson has regained his health and  
he has made up his mind to go to  
Hopkins county to visit relatives.  
He will be absent several days.

Mr. Nevil Nixon has moved back  
to his old home from Hopkins county.  
He has what is thought to be typhoid  
fever. His two oldest sons are also  
sick, confined to their beds with  
slow fever.

constable of the Fruit Hill district,  
was in our neighborhood last week.

Mr. Frank Robinson, of Antioch,  
was in our neighborhood collecting

from Henderson, where she visited  
her son, Edward, for several days.

They expect to return to Mo-  
bile, Ala., in a few days.

Evangelist E. B. Farrar, whose  
family now resides at Bell, is spend-  
ing a few days at home. He leaves  
Friday for Ludlow, Ky., near Cin-  
cinnati, O., to begin a series of meet-

eighty acres of land from C. R. Adams,

returned from Milwaukee, Wis.

The citizens of Howell have  
failed in securing a graded school,  
are now trying to build a house by  
private subscription and have an  
Academy or High school.

The recent rain insures us a good  
corn crop and a stand of clover for  
next year.

Some tobacco will be cut by the  
close of this week if the rain holds  
off a few days.

### GRACEY MINING CO.

Elect Officers Tuesday—Pros-  
pects Very Bright.

At a meeting at Gracey Tuesday  
of the stockholders of the Gracey  
Mining Company, the following offi-  
cers were elected for the coming  
year. Capt. T. S. Shaw, Cadiz,  
president; Gip Watkins, Gracey,  
vice president; J. T. Wall, Hopkins-  
ville, secretary, and Dr. D. E. Bell,  
Gracey, treasurer.

This company has been in existence  
about two years, and has a capital  
stock of \$600,000. They have sunk  
one shaft about sixty-five feet, and  
expect to begin work again soon  
sinking other shafts.

Mr. Ebs, the State geologist, was  
present Tuesday, and expressed the  
belief that fluor spar, lead and zinc  
could be found in paying quantities  
in these lands.—Record.

### "A Soap Bubble."

"A Soap Bubble" brings to the  
mind the days when all was as light  
and airy as the name of the comedy  
implies. And it is a fact; for, dur-  
ing the action of the farcical scenes,  
you are kept busy laughing at the  
very pranks you played—or would  
have played had you thought of  
them—when you were a boy or girl.  
"A Soap Bubble" has made the  
audience of laughter it has provoked,  
ring around three continents—Amer-  
ica, Europe and Australia—and now  
it comes home to us in a new dress  
as fit as fresh of the times as  
when it first began its tour around  
the world on its mission of mirth.

New scenes have been introduced  
all special and up-to-date music has  
been liberally interspersed through-  
out the play and the merry melody  
is making the same impression for  
good, as of old.

The "Soap Bubble" plays one per-  
formance at the Holland on Tuesday  
evening, August 21.

### ORDINANCE

Against Use of No. 5 to Be  
Enforced.

It is getting to be quite common  
for people to turn on No. 5 of the  
Home telephone service when the  
fire department has been called to a  
fire. By doing this all the wires are  
open and anyone can hear what is  
going on. People do this to find out  
where the fire may be, and it is a vi-  
olation of an ordinance and the pen-  
alty is quite heavy. Hereafter those  
who cannot restrain their curiosity  
will be punished. Never touch No.  
5 without you want to notify the de-  
partment where to go to fight a fire.

Where asphyns in a vortex meet!  
Ah! list his passioned love unfold

In fervent phrases strong and fleet!  
And in a beam of sunlight gold

Their lips in fervent kisses meet!  
Through apple-blossomed ways they stroll

In sweet communion, to the goal!

Making Home Happy.

Just as the sun was setting in Eden  
Adam put on his gaitskin overcoat  
and went out.

"Where are you going, Adam?" cried  
Eve from the balcony window. "You  
didn't kiss me good-by, either!"

"Ain't goin' nowhere," replied Adam,  
sullenly, "only just for a little piece  
and exercise. You didn't kiss me  
when I came home from the canebrake  
today, either!"

"I'm only goin' down the road to  
try another apple, and I'll be back be-  
fore morning if I don't fall into the  
moat!" snapped Adam, as he ducked  
around the corner and disappeared in  
the curtain bushes.

When he came along about three  
a. m., with a load of distilled elderber-  
ries under his rabbit skin vest, Eve,  
crying, was up waiting for him with  
a certain lecture as long as a liberty  
pole.

Thus it will be seen that even Adam  
and Eve knew how to make home  
happy.

## Unnecessary Expense.

Acute attacks of colic, diarrhoea and dysentery come on without warning and prompt relief must be obtained. There is no necessity of incurring the expense of a physician's service in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases and to family should be without it. KENTUCKY'S FAIR  
A BIG SUCCESS

Exhibition to Be Held Next Week at Louisville.

Opens September 17 and Closes Night of September 22.

TROTTER AND RUNNING RACES EVERY DAY

Premiums and Purse Amount to More Than \$25,000—Grand Concoits and Scores of Other Attractions. Visitors Will Be Well Entertained.

Everything is in readiness for the State Fair, which will begin next Monday at Louisville. The grounds having been beautified and put in perfect shape, the exhibits are being received and assigned to their proper quarters, and hundreds of little details are being attended to and preparations practically complete and will undoubtedly prove the greatest Fair ever held in the state of Kentucky. In many respects the Fair will be a surprise to those who attend, as it will give unmistakable evidence of the great advance that has been made by Kentucky in the past few years, and will show to the world the extent and value of her products, the pre-eminence of her horseflesh and magnificence of her other live stock. Splendid specimens of tobacco from her rich soil and grain from her farms will be displayed in abundance. Complete evidence of the industry and thrift of her housewives will be shown.

The State Fair deserves and will doubtless receive the hearty and untiring support of every loyal son of the commonwealth. It is a state institution, belongs to the citizens of Bell and Callaway counties as well as to the residents of Jefferson. It is the fair of the Mountains, the Blue Grass, the Kentucky and Purchase. It is a place where Kentuckians meet on equal ground, interested alike in the upbuilding of the state. To make a success and build it up from year to year will be the pleasure and the duty of every Kentuckian. The State Fair must be made to rank with those of Kentucky's sister states, which have been longer established. Kentucky has the citizenship and natural resources and stands pre-eminent in the breeding of horseflesh, and has nothing to ask when thrown in competition with the agricultural or stock breeding interests of other states.

Managed by State Board.

The State Fair affords an opportunity to the men who are developing Kentucky's mineral resources to advertise the untold wealth that lies in her mountains. The State Fair will be held under the management of the Board of Control, appointed by the State Board of Agriculture, Immigration and Forestry. W. T. Harris is chairman of the Board and J. B. Dowles of Bardonia is secretary. Prize money amounting to more than \$25,000 will be distributed during the week. This is an unusually large sum, the \$15,000 appropriated by the state having been supplemented by more than \$10,000 in addition. Much of this has been contributed by business organizations and public-spirited citizens of Louisville. The entire amount has been appropriated approximately as follows:

Horses ..... \$5,500  
 Cattle ..... 5,000  
 Mules and pack stock ..... 400  
 Women's department ..... 800  
 Field seed, tobacco, horticulture, etc. .... 2,500  
 Hens ..... 1,500  
 Sheep ..... 1,500  
 Purses for the races ..... 500

The large amount of prize money offered has attracted the highest class of entries both from Kentuckians and other exhibitors. The show rings will be worthy of the Fair and of the state in every respect. In every department the exhibits will be better than have been hoped for by the management or the outsider.

The added attractions of the Fair will be of the highest class. The showing of horses, cattle and live stock will begin. The show rings will be continued throughout the afternoon, with occasional intervals, during which the races will occur. The Fair will be open at night until 11 o'clock, the attractions being concerts by the band and shows of the carnival company. Every day will be featured especially, and the first day will be as good as the last.

The Land of BIG CROPS and PROSPERITY.

Are you making as much off your farm as you ought? No doubt you are making all you can. The trouble is the land costs too much. It takes too much money to buy a big farm, and so you are trying to make a living on a small farm, or perhaps you are renting one and paying a good share of what you raise, in rent. Wouldn't it be better to go where the price of good land is so little that you can own a big farm—where every acre of the ground is working for you and all you raise is paying you good profits?

There are thousands of acres of fertile land in the Southwest along the line of the Cotton Belt Route that can be bought for from \$3 to \$10 an acre. This land is increasing in value every year.

See the Southwest at Small Cost.

A trip to the Southwest would convince you that your best interests lay in settling there.

The trip can be made at very little expense. On the first and third Tuesday of each month you can purchase a round trip ticket to any point in the Southwest on or via the Cotton Belt Route at very low rates. Stop-overs will be allowed for you to examine any locality you are interested in.

Write at once for free copies of books describing this wonderful country and for full information about cost of tickets, etc.

# The State College of Kentucky,

LEXINGTON, KY.

The Agricultural and Mechanical (State College) of Kentucky offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Physical, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, and Mining Engineering, each of which extends over four years and leads to a degree. Post graduate studies are also provided, leading to a master's degree. Each course of study is organized under a separate faculty. The general faculty number nearly fifty professors and instructors.

County appointees receive free tuition, rooming in the dormitories, fuel and light, and if they remain two months, traveling expenses.

The laboratories and museums are large, well equipped, comprehensive and modern.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the College to supply. The matriculation for the last year was, including Summer school, 815.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering, instruction in science and in arts.

The State College of Kentucky, though bearing hypothetically the title of "college," is the only institution in the Commonwealth doing, in any proper sense, the university work.

The completion of the College home for young women provides facilities for good board and lodging. It is equipped with all modern conveniences, including bath rooms and room for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to young women of obtaining a thorough education in classical, modern languages, literature, science, mathematics, logic, metaphysics, history, and political economy.

No other institution in the State offers advantages for education of women at all comparable to those offered by the State College of Kentucky.

The Normal Department will be on a better footing than ever heretofore. Last year's largely increased attendance, with the unprecedented growth of the Summer Normal School, both indicate that an era of prosperity surpassing that of all previous years has opened for the Normal Department of the State College.

## OLD SHANKS WRITES AGAIN.

Discusses the Latest Move in Tobacco Circles--Old Clarksville is Tired.

Wants to Quit Fighting the Association and Be Good.

A call has been issued at Clarksville by certain tobacco men for a meeting of growers in that city.

Wednesday, Aug. 22.

A published call of the meeting says: "We cordially invite everyone interested in obtaining better prices, harmonizing whatever differences may have existed, bringing about a better and more friendly feeling and inaugurating more thorough and practical business methods in handling and selling."

"While we believe that the organic principles of the Dark Tobacco Growers' association are correct, and we believe them still we believe that with the experience we have had, the conditions might be greatly improved."

Keysburg, Ky., Aug. 14, 1906. Editor Kentuckian:

Well, well, well, the sore-heads are going to have them a little side show of their own are they? To think of their audacity in attempting to pitch their tent on our ground. Going to merge their little side show into the big circus, and take charge of the performance with their own ring master, eh? I suppose when they get this done, that will be Mr. Ewing purchasing a ticket, come in at the main entrance, and occupy a reserved seat, provided he pays the extra price to see the performance. I have no objection to their merging their little side show into our big circus, provided we have our own ring and band master, prepare the list of attractions, and arrange the programme; otherwise, let them pitch their little tent on their own ground, arrange and prepare their own list of attractions, and show to the world their wonderful mountroilery.

Listen to the hawker at the door: "Come right up gentlemen, and see the most wonderful snake charmer the world has ever produced (We'll know this snake charmer). Now, gentlemen, here is the Leaf-Chromide, the most agile and accomplished acrobat that has ever been shown on the American continent. See how he jumps from association to the trusts, O, that was a most wonderful leap. Now look, he jumps from private sales to the open market, and from a friend to Mr. Ewing, to a villager; but there is one jump that he has not shown the public, and that is, that bundles full of the old paper are sent out to the country peddlers, to be given away, and without takers at that. Next, a most wonderful animal, part pig and part puppy, good association member, but opposed to any rules and regulations, cannot talk well enough to explain the use there would be for an association if there were auction sales. Next, the man tattooed until you can't tell his color; you are so antized at his appearance that you do not ask him what is the real thing up his sleeve, but you know mighty well it is something else than auction sales. The fat boy, the trust agent, who has lost connection with the trust slot bucket by means of the association.

The man who cuts a glass and swallows a sword; the focus-pose fellow; the spotted ponies and the ring-tailed monkeys. O, that will be a wonderful aggregation of the world's celebrities, and with the razz-dazzle of it all, they would have you think, simply by stealing their names in the paper unauthorised, that some of our loyal people would address their deceitful meeting. I may go to see this wonderful display, to be pulled off at Clarksville on the 22nd inst. I want to see who has any enoshy about this entire show movement. They say to turn the hat over, and let by-gones be by-gones. "Good God," said the woodcock, and away he flew. Who's got any intellet but themselves? Who is holding to any by-gones but themselves? We are a joyous family, and extend their only sympathy for their innate selfishness. "We won't play," say they, "unless you fix us so we are bound to win." We have nothing to compromise, we have got our rules and regulations, which are sensible and just, and if these rules don't work we'll be governed by them, let them make the poor, puny pusillanimous claim of being loyal members. Let us give them a dishonorable discharge, and send them back to the lot, whence all this nonsense was hatched. There

is something certain, they are not going to be able to get on with the future and the future is not going to have any of our tobacco put up and sold to the highest bidder, either, notwithstanding they will not put up the fellows to say, "We will buy it if you do this." They had this opportunity years ago, did they do it? Yes, but at about the price they are charging us now for drayage. We are going to put a price on our own tobacco, by our own executive committee, and say to the buyers, take it at the price we name, or let it alone; and if these bushwhackers, sore-heads and half-breds of Clarksville, who separate themselves from the good people, who are already swelling at them, don't like it, they can lump it, and if they want to go over to the enemy, body and breeches, by violating an honest obligation, let's brand them on the cheek, as criminals were once branded. Let them go with as much pride as they can command, but if they have enough sense to be made tools of by men, who are too smart to put their names in the paper, and want to prove to the world that they are sincere in their claims, let them be true members and friends of the association, they will come up like men, and take their "grub" straight out of the association trough, and by-the-way, we observe, that trough is getting a little more "grub" by all the fine, anti-trust finally expect to see "pig," real "sore-top" pig, in that same trough. It is absurd and silly to talk about auction sales. How long would competition last. About fifteen minutes. There is not enough true members to constitute a corporation that are in favor of any such proposition. He have the only common-sense, practical plan of selling tobacco, and we are going to stand by our executive committee, and sore-heads, cranks, loafers, who hang around the lot, where false doctrines are dispensed for graft, can shape their course accordingly. They will have to subscribe to all our rules and regulations, edicts, ultimatums, and dictums, or have no part or parcel with us, and we will let it be that they don't slide down our cellar door, and if they don't like that, they can lump it. Every one of them knows that he has the privilege of voting for the best man in his district. Keep out of the trust. No, they shall not join in with our enemies, to rob our people of money. We have a president, chairman of the executive committee, and a board of directors that cannot be bought, bribed, coerced or persuaded into anything, that would betray the people's rights. Thank the Lord for that!

Wouldn't any woman be happy, After years of backache suffering, Days of misery, night unrest, The distress of urinary troubles, She finds relief and cure? No reason why any Hopkinsville reader Should suffer in the face of evidence like this: Mrs. John Coombs, of 1226 Virginia street, says: "For a great many years I suffered with a persistent aching across my loins and through my kidneys. At times my back was so bad that I could hardly turn in bed and I could hardly lay on my back at all without placing my hand under it, which seemed in a measure to relieve the pain. A friend of Mr. Coombs told him about Doan's Kidney Pills and then he got a box for me at L. A. Johnson & Co's drug store. On using them I steadily improved until the dreadful aching was relieved and I could attend to my household duties without any inconvenience. They did more for me than any medicine I ever used and I gladly recommend them."
